Brother® DSmobile® 600 Compact Color Scanner

This scanner provides a simple but effective tool to capture, manage, and archive documents of many types. It connects directly to your computer via a USB cable and allows you to scan and save images of documents like invoices, statements, letters, or pictures. It is powered by the USB system in the computer so you don't need any batteries or AC power supply.

Key Features at a Glance:

- **Small, compact design –** Measuring approximately 1.5"H x 2.0"D x 11"L and weighing only 12.2 ounces allows the DSmobile 600 to fit on your desktop or be a perfect traveling companion.
- **No job too small or too large –** The DSmobile 600 provides the versatility to scan media from business card size to 8.5" x 14" paper size.
- **Just add a PC –** The unique USB power/data interface draws power directly from the PC and comes with a detachable USB cable.
- **High performance with low power consumption –** The DSmobile 600 connects to a high-speed USB 2.0 interface yet consumes only 0.2W of power when in standby mode and a maximum of 2.0W of power when scanning.
- **Just a touch away from scanning –** One touch of the button on the DSmobile 600 will launch your choice of compatible scanning programs. Make a preferred scanning program your default and that one touch will initiate that program.
- **The DSmobile 600 is not just a scanner –** it is a powerful scanning package. The DSmobile 600 scanner come with everything you need to scan, straight out of the box … including the following Windows® software:

  DSmobileSCAN II – Allows scanned documents to be automatically saved as Adobe® Acrobat®, Tiff or JPEG file formats. An added feature to this software is the ability to initiate a scan from the DSmobile scanner button.

  PageManager® Version 7 – When used with the DSmobile 600, it allows a user to scan and organize digitized files with the ability to view, edit, send and save files in many formats.

  TWAIN and WIA drivers – These drivers allow users to control all scanner details and settings. A user will have an array of scanning applications to choose from because TWAIN is compatible with any software application that uses TWAIN device input.
